

Dear friends,

Surely you have enjoyed your eid holidays with your families and friends and have also remembered the needy.

Rains have devastated the city and made life difficult for many, I hope you have stayed safe during these trying days.

Our school was also inundated with rain water, specially the senior section area. The nallah by the side overflowed and its water covered the whole area behind the swimming pool. The management is doing everything to cope with the situation.

Stay connected by emailing us your thoughts and comments.

Best Regards,
